

opposition to media consolidation

I am writing to you today to comment on Docket No. 02-277. I urge you to vote to oppose the proposed change in ownership rules. Current rules which prevent media domination by a few large corporations help preserve diversity in media content. I am alarmed that media control by a few large corporations will limit the content that will be available. Again, I urge the FCC to continue to impose the present rules limiting such corporate dominance.

Thanks,
Kenny Miler
